AMENDMENTS TO THE CLAIMS

The following listing of claims replaces all prior versions of claims in the application.

1-8. (Cancelled)

9. (Original): A chemiluminescent device comprising:

a flexible container;

an approximately cylindrical tube which is made of polypropylene and sealed at both ends, said tube being contained in said flexible container, said tube including a plurality of pinhole-shaped apertures extending from the surface thereof without penetrating through the wall thereof;

an oxidizing liquid enclosed in said tube, said oxidizing liquid including an organic solvent, a hydrogen peroxide solution and a catalyst; and

a fluorescent liquid enclosed in said container on the outside of said tube, said fluorescent liquid including an organic solvent, an oxalate and a fluorescent material.

10. (Original): The chemiluminescent device as defined in claim 9, wherein said apertures are a number of pinholes formed over substantially the entire surface of said tube in the form of dots.

11. (Original): The chemiluminescent device as defined in claim 9, wherein said apertures are a number of pinholes formed in one or more regions extending along substantially the entire
